

# Add Accounts

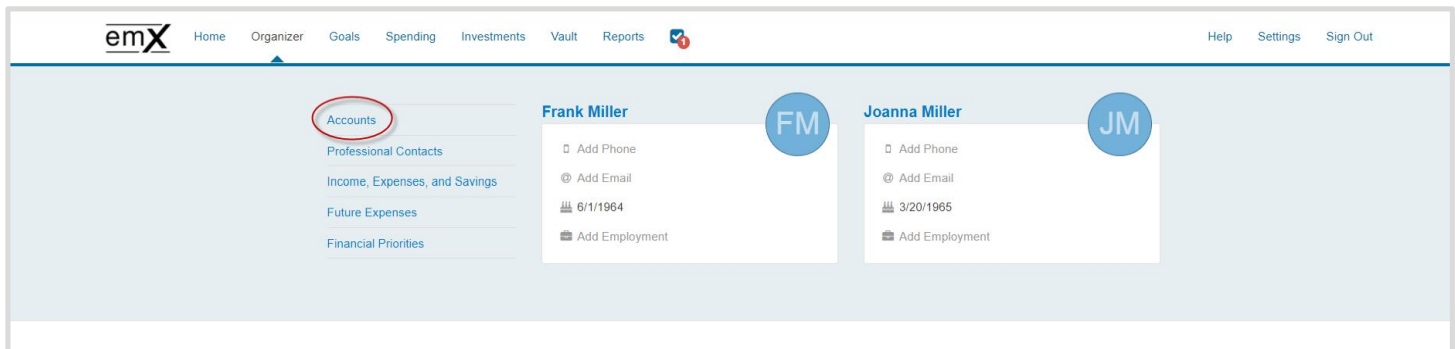

In this userguide, we will demonstrate how to establish a connection with your personal banking institutions. A connection is a direct link with an institution that feeds over updated account information.

1. From your home page, click **Organizer**.

You can also click the **+Add Account** link directly from the Home page!

2. Click **Accounts**.

# Add Accounts

3. Review the information on why you should add accounts, and what type of accounts you should add. Click **Add**.

## Accounts

[Add](#)

No accounts have been added yet.

### Why should you add your accounts?

Adding your account connections is one of the most important steps toward establishing a holistic view of your financial picture. In doing so you benefit from:

- Account values that update automatically each night to give an accurate view of your current financial status.
- Access to all of your accounts, organized neatly in one place.
- 24/7 monitoring of your financial well-being.

### What types of accounts should you add?

- Cash** – Including any checking, savings, or other cash accounts.
- Investments** – Including brokerage, 401(k), 529, etc.
- Credit Cards** – Any major credit or charge accounts.
- Loans** – All types of loans, including mortgage, home equity, auto, school, personal, etc.
- Life Insurance** – Including whole life, term life, group policies, etc.
- Property** – Including homes, businesses, cars, jewelry, and any other personal belongings of value.

# Add Accounts

4. Select whether or not you have an online login for this account.

**Please Note:** If you do not have an online login for this account, the application will help you add the accounts manually.

The screenshot shows a web form titled "Add Accounts" with a "Go back to Accounts" link. The main question is "Do you have an online login to your account's institution?". There are two radio button options: "I have an online login to this account" (which is circled in red) and "I don't have an online login to this account". A "Cancel" button is located at the bottom center.

5. Enter the institution's name or website address and click **Search**.

The screenshot shows the same "Add Accounts" form. The question "Do you have an online login to your account's institution?" is not visible. Instead, there is a text input field with the placeholder "Enter your institution's name or website address". A "Search" button is located to the right of the input field and is circled in red. Below the input field, there is a section titled "Can't find your institution?" with the text "Some accounts don't have online access. To add those accounts, you will need to use a form to fill out the information." and a "Help me add my account" button.

# Add Accounts

- From the search results found, select the appropriate link.

Go back to Accounts

## Add Accounts

Enter your institution's name or website address

 × Search

- Next you will acknowledge the institution notice where applicable. This notice will inform you of any important information relating to this institution's connection. Click **Continue**.

11. Each connection you establish will have its own specific maintenance required. For example, if you updated your password on the institution you will need to then update the credentials in your portal.

You can **Delete** the connection, **change your settings**, **find new accounts**, and **refresh** the connection at any time to pull over updated account values.

12. The settings link gives you the option to enable your Advisor to find new accounts on your behalf.

**SET ADVISOR PERMISSION** ✕

Do you want your Advisor to be able to find accounts from **eMoney Advisor Source (EMA)** - **Client Access** in the future?

No, only I can find new accounts from this institution.

Yes, my Advisor can find new accounts from this institution.  
Your advisor will have the ability to find newly available accounts as well as existing accounts you may have intentionally excluded.

**Save** **Cancel**

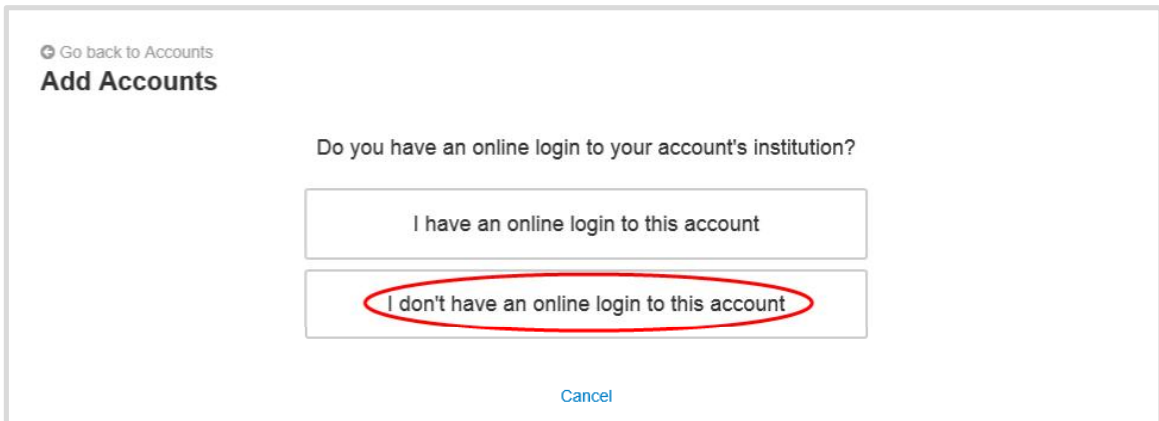

# Add Accounts

If you do **not** have an online login to an institution, follow the below steps to enter accounts in manually. While manual accounts do NOT update, they help build a better financial snap shot for both you and your advisor.

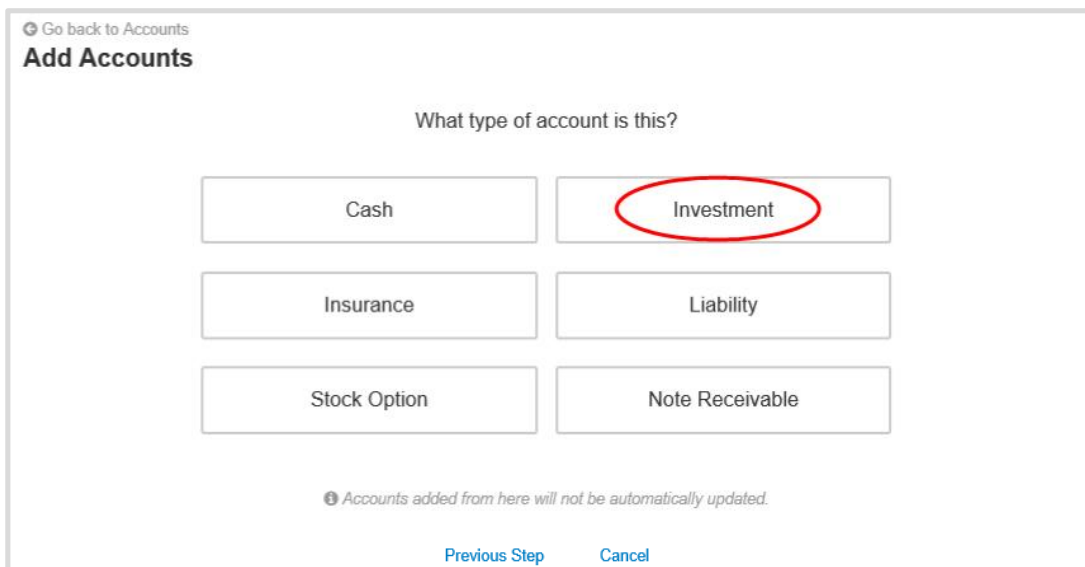

1. Click **Add** on the Accounts page.

2. Select "I don't have an online login to this account."

3. Select the type of account.

# Add Accounts

4. Enter details about the account and click **Save!**
